

Dear Colleagues and Friends of Haydn,

We invite you to honor Professor Haydn H. Murray for his life-long dedication to the advancement of clay science by contributing to an upcoming “Haydn Murray Memorial Issue” of *Clays & Clay Minerals* and/or by participating in a session honoring Professor Haydn Murray at the 2016 Clay Minerals Society Meeting held in Atlanta, Georgia. Our intent is to recognize Dr. Murray’s work and its impact on the clay science community that he helped establish through the creation of The Clay Minerals Society in 1963.

The program committee for the 2016 CMS meeting has kindly dedicated the session on “Origin of Kaolins, Beneficiation, and Uses of Kaolins and other Industrial Clays” in honor of Professor Murray. This session will showcase geology, deposit development, processing and marketing of clays which have been central to his life’s work. The 53rd Annual Meeting of the Clay Minerals Society will be held at The Georgia Tech Hotel and Conference Center from June 5 to June 8, 2016. Visit <http://conferences.illinois.edu/CMS2016/> for more information.

53RD ANNUAL MEETING OF THE CLAY MINERALS SOCIETY
Atlanta | June 5-8, 2016

We invite you to submit a manuscript for your presentation or a manuscript completely independent of any presentation for publication in a special “Haydn Murray Memorial Issue” of *Clays & Clay Minerals* possibly to be published in late 2016 or early 2017. We are seeking manuscripts that review topics related to Dr. Murray’s life work and manuscripts about novel research related to Dr. Murray’s life work on industrial clays, their geology, characterization, processing, properties or uses. Authors will submit their manuscript through the online manuscript-tracking system, PeerTrack, <http://www.edmgr.com/ccm/>. The manuscript length and format should conform to the general guidelines for the journal found online at www.clays.org/JOURNAL/CCMjournsubm.html,

Upcoming deadlines are: March 15, 2016: abstract due for the 2016 CMS meeting; June 10, 2016: final manuscript due for the “Haydn Murray Memorial Issue” of *Clays & Clay Minerals*. We look forward to a reply indicating your participation.

Sincerely,

Jessica Kogel
